- André Laurin
- Marine Hadengue
- Michel Brunet
- André Monette

Net Assets

2016 : \$15 million
2015 : \$13.3 million
2014 : \$13 million

Introduction

We are pleased to announce that the Foundation will periodically release a newsletter to keep everyone up to date with our activities.

Networking Event

On the 22nd of December, we held our first networking event. Held downtown Montreal at CIRANO, a research organization that partners with all the Quebec universities.

After guests enjoyed cocktail hour, a conference was given by Marine Hadengue, PhD, about reverse innovation between China and North America.

The event allowed for the previous and new scholars to mingle as well as meet potential employers.

Our next networking event will be held on the 30th of March at 6pm, again at CIRANO. With a similar format, cocktails will be served first and then we are fortunate to have Peter Letko, President of Letko Brosseau, an investment firm with over 30 billion \$ under management, with us to host a conference about **Investing During Periods of Prosperity**.

Foundation News

We have recently decided to grant scholarships to deserving students who have yet to become permanent residents. Because of this change, we are expecting to give a total of \$425,000 worth of scholarships, compared to \$390,000 this year. This increase is possible thanks to our investments and the generosity of past scholars fulfilling their moral engagement of donating 1% of their annual salary to the Foundation. Thank you!
