Diane de Champlain  
André Laurin  
Michel Brunet  
André Monette

## Assets in 2018

\$16,3 million

## The Fondation's Networking event on June 26th!

### WHAT NO ONE WILL TELL YOU ABOUT ENTREPRENEURSHIP

On June 26, 2019, the Arbour team invites you to attend a networking event, entitled What no one will tell you about entrepreneurship. Our speaker, Antoine Azar, is the cofounder and CTO of Fiska (formerly Thirdshelf), a financial technology firm. Fiska is backed by some of the top investors in fintech & retail technology, and was featured in TechCrunch, NRF's STORES, 9To5Mac, and other international publications.

Prior to that, Antoine was the founder and CEO of Mobilogie, acquired by Logient in August 2015. Mobilogie is an award-winning mobile consulting firm that helps companies develop world-class mobile strategies and applications. A respected leader in innovative digital technologies, Antoine is a member of

the Forbes Tech Council, a speaker at international conferences, and a mentor and judge at various startup events.

Antoine has a Computer and Biomedical Engineering Masters from the University of Nice, France, as well as a Computer Engineering Bachelor's degree from the École Polytechnique de Montréal. He held technology engineering positions at firms such as Mozilla, Siemens, and MIT.

**Your attendance is important to us! Drinks and finger foods will be served. Don't forget to RSVP with Chelsea Craig before June 17th by email at: [Chelsea.craig@fondationarbour.ca](mailto:Chelsea.craig@fondationarbour.ca)**

## The nomination of new Board Member, Diane de Champlain

La Fondation Arbour is happy to announce that Diane de Champlain has joined our Board of Directors. Director General of the Polytechnique Alumni Association since 2005, President and CEO of the Polytechnique Foundation from 2010 to 2017, Diane has helped raised more than \$ 100 million as part of the Campus Montréal campaign. Diane's unparalleled experience and extensive knowledge in the education field will surely make her an outstanding asset for the Arbour Foundation. Since her appointment, Diane has already helped us in a number of important areas, such as strengthening ties with our partner universities and mentoring our scholars. She will also be on the selection committee for the year 2019-2020. The Foundation team is honored and delighted to have Diane as part of our team!

## The signing of an agreement between La Fondation Arbour and the pan-Canadian organization of Mitacs

It is with great pride that we are announcing the creation of a new partnership with Mitacs, Canada's largest collaborative university innovation platform with advanced research and training programs in Canada and abroad. Benefiting from their selection resources and extensive experience, the Arbour Foundation will now be funding university technology entrepreneurship by supporting MSc or PhD students whose research activities are intrinsically linked to a new growing company or business. We believe that entrepreneurship at the university level is one of the keys to the development of our economy!

This new scholarship will be available in our 8 partner universities. More information will be available soon on our website!

## Our Scholar Success Stories

Congratulations to **Roseline Olory Agomma** for success at the 2019 McGill Dobson Cup powered by the National Bank. The Gynoteck Company, co-founded by Roseline, won second place in the Health Sciences Track category for 2019!

Congratulations to our scholar **Nadia Belaribi** for her nomination to the HEC Montréal Honor Roll in Financial Engineering!

Congratulations to our scholar **Lamiaie Senhaji**, recipient of the CDPQ's Relève Prize!
